

26TH ANNUAL FLORIDA HURRICANE CATASTROPHE FUND PARTICIPATING INSURERS WORKSHOP

JUNE 10–11, 2026

**HYATT REGENCY ORLANDO
INTERNATIONAL AIRPORT**

The Florida Hurricane Catastrophe Fund (FHCF) is pleased to invite you to the **26th Annual FHCF Participating Insurers Workshop**. This two-day event is designed to educate and engage Florida’s insurance industry professionals by providing essential updates, expert insights, and practical guidance for meeting FHCF requirements.

In recent years, several new insurance companies have entered Florida’s residential property insurance market, while many long-standing participating insurers have expanded their teams with employees who are new to working with the FHCF. In response, we have added a closing session on June 10 that will provide a high-level overview of the Florida Hurricane Catastrophe Fund. This session is designed for employees of both new and established participating insurers who are new to the FHCF or seeking a refresher on its core functions. Attendees will gain a practical understanding of the FHCF’s purpose, structure, and role within Florida’s insurance market, as well as key concepts related to participation, coverage, and ongoing engagement. This overview is intended to establish a common baseline of knowledge and help participants feel informed and prepared heading into the more technical discussions on June 11.

Workshop Highlights

- Keynote Speaker Florida Chief Financial Officer Blaise Ingolia
- Legislative Fireside Chat with Florida Senator Tom Leek
- Florida State Board of Administration Executive Director Chris Spencer
- Florida Emergency Preparedness Leadership and Response
- Updates on FHCF Financial Strength, Stability, and Operations
- Insights on the Florida and Global Reinsurance Markets
- 2026 FHCF Reimbursement Premium Formula
- Exposure and Claims Examinations Updates and Roundtable Discussion

The FHCF is committed to providing participants with informative presentations, valuable resources, and opportunities to connect with peers across the industry.
